

Part Number: V2-02-7207

Description: Main Bearing (Left Hand) - Fits all 2 V + 4 V Belt to 2006

Product Details: These bearings are carefully sourced from high end manufacturers and are supplied to match the specific Bearing Clearances and fitting tolerances required for their particular requirements.

Part Number: V2-04-230

Description: Straight Cut Primary Gears

Product Details: Primary Gears for all 2/4 valve Belt Drive engines. Designed with a 'hunting' tooth to prevent engine from firing on the same tooth everytime therefore greatly reducing metal fatigue and failure. Significantly lighter, increasing throttle response.

Part Number: V2-04-525

Description: Aluminium Clutch Basket/Support Ring Standard

Product Details: CNC machined, hard anodised Aluminium clutch basket machined with tighter tolerances to increase basket life. Basket also features a web pattern machined into the back surface, lightening it without loosing any structural integrity.

UOM: each

Year from: all

Year to: all

Part Number: V2-04-526

Description: Steel Clutch Basket Standard

Product Details: CNC machined case and hardened steel clutch basket, giving extremely long life spans made for hard wearing environments. Basket features Vee Two web which lightens it by 55% under OEM product.

UOM: each

Part Number: V2-12-225

Description: Clutch Slave Cylinder (Up to 1999)

Product Details: Ezi-pull clutch slave cylinder to suit all 6 speed Belt Drive engines up to 2000. CNC machined from billet with a bigger piston diameter, greatly reducing the effort required to pull in the clutch. It is manufactured with three 'O Rings' to stop any clutch leakage problems as opposed to OEM's one 'O Ring'. Comes in a complete range of colours.
