

Part Number: V2-02-7207

Description: Main Bearing (Left Hand) - Fits all 2 V + 4 V Belt to 2006

Product Details: These bearings are carefully sourced from high end manufacturers and are supplied to match the specific Bearing Clearances and fitting tolerances required for their particular requirements.

Part Number: V2-03-210

Description: Camshaft High torque Belt

Product Details: High torque cam for low end power. Excellent for city use and engines using original long unlet manifolds

UOM: kit
Year from: all
Year to: all

Part Number: V2-03-212

Description: Camshaft - Road / Track Belt

Product Details: This cam is for use only with short manifolds or EFI models. Performance is increased through Rev Range. Suitable for engines required to run high RPM.

UOM: kit
Year from: all
Year to: all

Part Number: V2-04-230

Description: Straight Cut Primary Gears

Product Details: Primary Gears for all 2/4 valve Belt Drive engines. Designed with a 'hunting' tooth to prevent engine from firing on the same tooth everytime therefore greatly reducing metal fatigue and failure. Significantly lighter, increasing throttle response.

Part Number: V2-09-201

Description: 92mm Dia. H/C Road Piston

Product Details: 92mm High Compression Pistons to suit 900/SS/M 2 valve Belt Drive engines. Manufactured from a high silicon alloy (lighter & stronger) with double bridge support allowing a shorter gudgeon pin, reducing piston flex and in turn providing a better sealing ring.

UOM: each

Part Number: V2-09-204C

Description: 96mm Dia. H/C Ceramic Coated

Product Details: 96mm Big Bore High Compression Pistons to suit 900/SS/M 2 valve Belt Drive engines. Ceramic coating reduces heat and evens out heat distribution. Manufactured from a high silicon alloy (lighter & stronger) with double bridge support allowing a shorter gudgeon pin, reducing piston flex in turn providing a better sealing.
